# **SITUATION SUMMARY**

## **Labor Day Weekend BART Transbay Tube Closure**

BART has shut down train service between Oakland and San Francisco over the Labor Day weekend, September 5-7, so workers can rebuild a section of track near the Transbay Tube. Train service stopped at the end of service Friday, September 4, and will remain closed until the start of service on Tuesday morning. BART also wants to remind people since Monday is a holiday, BART will operate on a Sunday schedule that day.

- Nearly 100 buses will continuously shuttle passengers between 19th Street BART Station in Oakland and San Francisco's Temporary Transbay Terminal.
- The West Oakland BART Station will be closed during the shutdown. If West Oakland is your home station, there will be a shuttle available to take you to 19th Street/Oakland station.
- Additional information regarding the modified BART schedule can be accessed here:  
<https://www.bart.gov/news/articles/2015/news20150803-0>

## **Cal OES Activation Status**

- The State Operations Center (SOC) is activated at Level 1.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 1.
- The Southern REOC is activated at Level 1.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- Plumas County Drought Continuance Proclamation received on 09/04/15, dated 08/20/15

## **Weather of Concern**

- A Freeze Watch is in effect for portions of Modoc and Siskiyou Counties from late tonight through Sunday morning due to the potential for a freeze with temperatures dipping into the upper 20s to low 30s.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

A gradual warming trend is expected across northwest California for the next week as a ridge of high pressure builds over the eastern Pacific and then noses over the west coast. Dry conditions will persist with mostly sunny skies.

#### **Medford Weather:**

The upper level low that brought showers to our area yesterday has shifted to the northeast. As it moves away, some residual clouds and showers may continue into the morning over eastern portions of Lake and Modoc Counties, and perhaps over the Cascades at and north of Crater Lake. All precipitation should exit the area by noon, and by that point, only partly cloudy skies should remain over the forecast area. With cloudiness gone, temperatures today will be slightly warmer than yesterday, but still well below normal for this time of year. Tonight, with clear skies and a cold air mass in place, temperatures will become cold, reaching below freezing within several valleys of the east side. Temperatures will see a steady climb throughout the week, reaching above normal values by midweek. Model solutions and guidance suggest highs in the low to mid 90s for many of the west side valleys and northern California, and mid 80s for the east side, by the weekend.

#### **Reno Weather:**

Fall-like temperatures will be in place for the start of the holiday weekend with overnight lows near or below freezing in colder valleys tonight. A few showers will persist near the Oregon border today before a much drier air mass spreads across the eastern Sierra and western Nevada Sunday into next week. Winds will generally be light with a warming trend the upcoming week.

#### **San Francisco Weather:**

Expect mostly clear skies through the holiday weekend, even at the beaches. Daytime temperatures will warm well into the 70s and lower 80s at the coast by Sunday and Monday. Inland areas are forecast to warm into the 80s and lower 90s. A broad upper ridge is forecast to remain over the west through next week. Thus, we can expect continued warm and dry conditions through next week and into the following weekend.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Dry with near normal temperatures by Sunday. Locally breezy North to East wind expected over the weekend. Continued dry next week with temperatures warming to above normal.

#### **Hanford Weather:**

A cooling trend will continue today with temperatures remaining several degrees below normal. Winds will be gusty through and below the Kern County Mountain passes and on the west side of the San Joaquin Valley today. Temperatures will warm to seasonable levels by labor day, and the warming trend will continue for much of the week. Dry weather is expected through next week.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Fair skies through next week except during the overnight hours when clouds and patchy fog will be along the coast, and locally in some valleys. The afternoon temperatures will be below to near normal through early next week. Then a continued warming trend next week will raise temperatures to above normal by midweek as high pressure builds in.

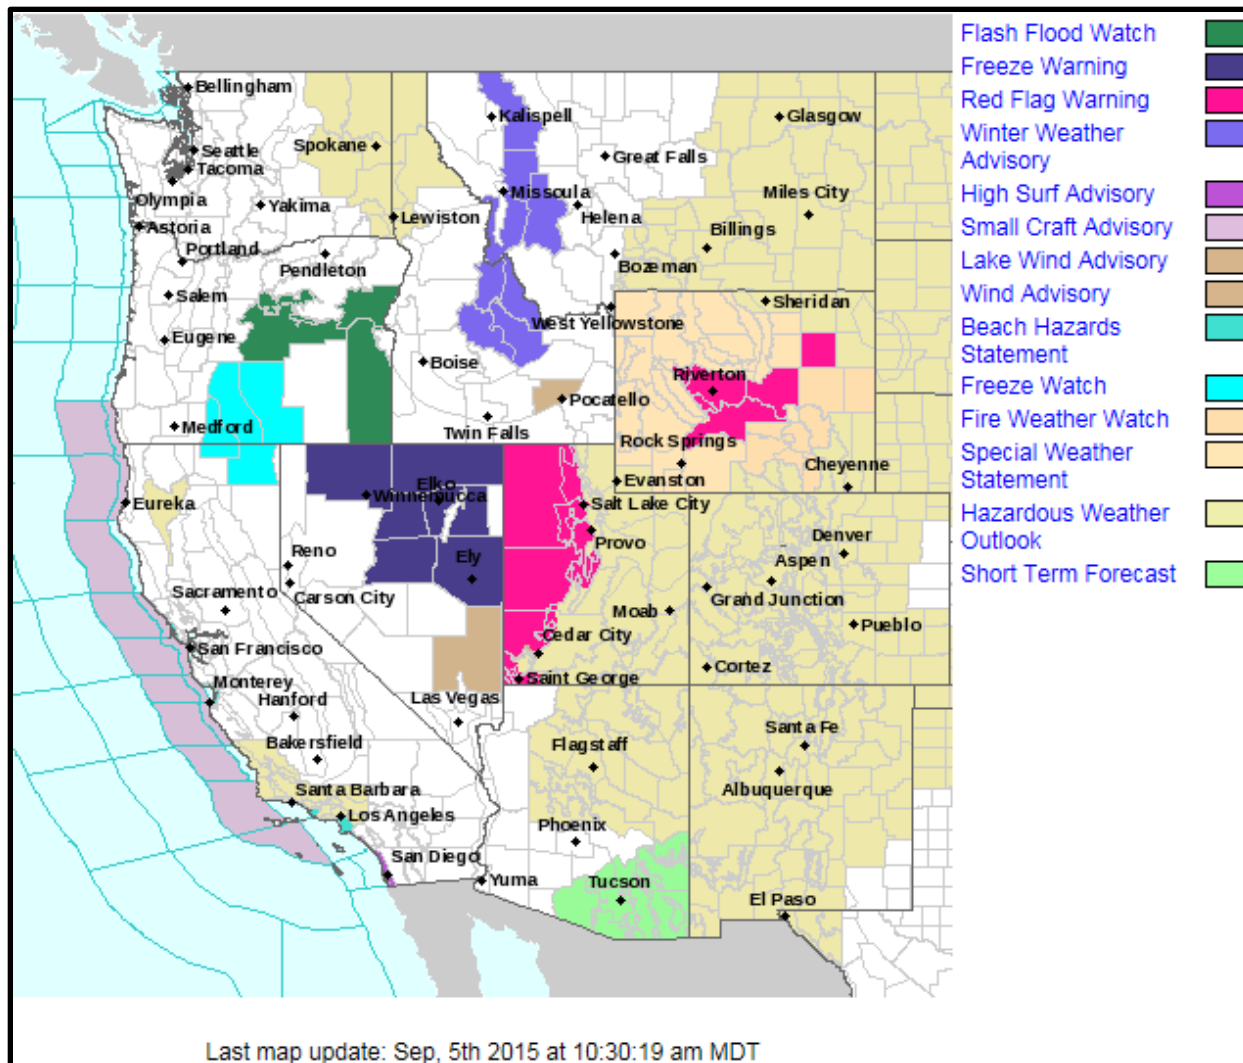

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

An upper level trough moving inland across California this weekend will bring southwest flow aloft through Sunday. Remnant moisture from Tropical Storm Kevin will bypass most of southern California to the east. Building high pressure aloft will bring warmer days and a shallower marine layer Monday through Wednesday. Late next week moisture drifting north from the tropics may bring mid level and high clouds to the region.

#### **Southeast California Weather:**

A feed of tropical moisture into Arizona will still allow for a shower or thunderstorm around through Tuesday. Otherwise a storm system passing across Nevada today will result in another day of gusty south to southwest winds across the area especially in Lincoln County. Winds will decrease in all areas on Sunday. Temperatures will remain below normal through the weekend then return to above normal by the end of next week.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
